Advanced Strategies To Turn Business  
Connections Into Leads & Customers

## Connecting with people on LinkedIn through Direct Messages

Below are many templates to choose from when messaging people on LinkedIn. You can change the orange text with your own personalized words. But also remember, that some of these might not always work for you. Continuing to expand on these messages and personalizing them so they work for you is the best course of action. You might want to leave some parts out if not applicable, and add some extra sentences in where needed. We hope this to be useful to you in your LinkedIn Connection building journey!
